Social Evening (special report by our society columnist)

This gala affair was held Friday Feb 3rd at HMCS Carleton. The ladies were as usual most alluring. The converstations of those in attendance were cultural and stimulating. I think that the most inspiring sight was that of the dancing - contemporary and classical. I am constantly amazed at the utter versatility of mobile club hams, xyl and yls. To those not familiar with our high principles, I might explain that it is forbidden for hams to bring their wives as well as their girl friends to the same event. It seems that those who like dancing claim that the blood makes the floor sticky! Some of the attendees exhibited great promise in the art of elbow bending, and with a little practice could become leaders in this field. Our protocol advisor stated that he was greatly impressed with our complete adherence to all codes - in fact he went so far as to say that only in the courts of Europe, could we be equalled. To those unable to attend - a tear from a very bloodshot eyeball! So like you missed a GASSER !
